

Terms of Rental

Limitation of Liability: Pro8mm accepts no responsibility for damages or losses, including, but not limited to, losses of time, money or filmstock resulting from equipment failure, film failure or damaged film during processing even if damage or loss is caused by negligence or other fault. Nor will we be held liable for losses resulting from failure to deliver equipment, film, processed/prepped film, transferred film or any other item or service. The Pro8mm store policy has also been read and accepted as part of the terms of this agreement. In case of litigation (for any reason), losing party shall be responsible for all fees, including, but not limited to any collection fees and legal fees.

Additional Charges: Pro8mm reserves the right to collect additional charges if the following events occur:

A. Equipment is returned late following a rental.

Equipment will be considered late if it is returned after 11:30AM on the appointed day of return. A charge equal to twice the normal rental rate will be required for each day that the equipment is late.

B. Equipment is lost, stolen or totally destroyed.

A charge equal to the retail price as stated in Pro8mm's most current price list shall be required.

C. Equipment is damaged during the rental.

A charge based on the cost of a comprehensive repair to all damaged equipment by a qualified technician to be chosen by Pro8mm will be required.

D. A rental is cancelled less than 48 hours prior to the time equipment is scheduled to be delivered.

A charge equal to 100% of the cancelled rental will be required.

Early returns: No refunds or discounts will be given for early returns. Unused film can not be returned for a refund or credit.

Deposits: The deposit will be refunded only after all equipment has been inspected and tested to assure that nothing has been lost or damaged and all pending invoices have been paid. If any additional charges exceed the amount of the deposit the renter will be liable for the additional amount.

Film Stocks: Pro8mm rental cameras are calibrated for use with Pro8mm color negative film stocks. We accept no responsibility for any camera registration problems resulting from the use of any other type/s of super 8 film stock/s (Ektachrome, Kodachrome, B&W, etc.) run through our cameras.
